## Drink West Cape Howe Shiraz 2007

Thursday 2<sup>nd</sup> September 2008

“West Cape Howe is one of the rising stars of WA wine. Most of the various straight varietals and blends derive from the Great Southern region and the company has a cellar door near Denmark. This latest shiraz is still showing some of the rough edges of youth, but there is no denying the juicy blackberry, plum and raspberry fruit flavours laced with pepper and sweet spice.

Will respond well to decanting and breathing.

Paddy Kendler
